CRIME IN HAWAII

A REVIEW OF

UNIFORM CRIME REPORTS

HAWAII CRIMINAL JUSTICE DATA CENTER

MAY 1983

FOREWORD

Crime is one of the foremost items of concern to all citizens of Hawaii. As all persons are affected by crime and by the fear of crime, a need exists for timely, accurate and reliable reporting on the number and nature of crime.

The State of Hawaii, Uniform Crime Reporting Program, was established, following national guidelines, in response to this need. Under the auspices of the Department of the Attorney General, the Hawaii Criminal Justice Data Center currently compiles and analyzes Uniform Crime Reports (UCR). The data obtained through the UCR Program serve as a set of uniformly defined criminal statistics that makes possible yearly, inter-agency and national comparisons.

Crime in Hawaii, 1982, A Review of Uniform Crime Reports, is a summary of statistics on crime in the State and Counties of Hawaii. This publication serves as a tool for administrative and operational decisions, however it also serves to inform the public on the extent of criminal activity in Hawaii. The summary shows that reported Index Crimes have increased slightly in the past year. However, there were three (3) categories that registered decreases: murder, burglary - breaking and entering, and motor vehicle theft. The number of reported murders is the lowest since 1971.

The Data Center wishes to express its appreciation to Joseph Cravalho, Chief of Police, Maui Police Department; Roy K. Hiram, Chief of Police, Kauai Police Department; Francis Keala, former Chief of Police, Honolulu Police Department; Guy Paul, Chief of Police, Hawaii Police Department, and to their respective research staffs for providing the accurate and necessary data reported herein, and to the Federal Bureau of Investigation which provided assistance and guidance in the collection of the Uniform Crime Reports. Their assistance is gratefully acknowledged.

INTRODUCTION

Operational Criteria

The development of the State Uniform Crime Reports (UCR) Program is a relatively new approach to the collection of UCR data. An important aspect of the transference of this collection responsibility from the FBI to a State agency is to ensure consistency and comparability in the data collected by the State programs. Following are the conditions set by the FBI under which a State program is developed and by which it must operate:

(1) The State program must conform to the national Uniform Crime Reports standards, definitions, and information required. This, of course, does not prohibit the State from collecting other statistical data beyond the national collection.

(2) The State agency must have a proven, effective, mandatory, statewide program and have instituted acceptable quality control procedures.

(3) Coverage within the State by a State agency must at least be equal to that attained by Uniform Crime Reports.

(4) The State agency must have adequate field staff assigned to assist local units in record practices and crime reporting procedures.

(5) The State agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tape.

(6) The State must have the proven capability (tested over a period of time) to supply all statistical data required to the FBI in time to meet national Uniform Crime Reports publication deadlines.

(7) The FBI will continue its internal procedures of verifying and reviewing individual agency reports for both completeness and quality.

(8) The FBI will continue to have direct contact with individual reporting units within the State where necessary in connection with crime reporting matters, but will coordinate such contacts with the State agency.

(9) Upon request, the FBI will continue its training programs within the State with respect to police records and crime reporting procedures. For mutual benefit these will be coordinated with the State agency.

(10) Should circumstances develop whereby the State agency cannot provide the data required by the national program, the FBI will reinstitute a direct collection of Uniform Crime Reports from police units within the State.

Background

UCRs are a long-standing source of information about law enforcement and crime.

The purpose of the Uniform Crime Reports component is:
to establish, at the state level, the responsibility to collect and report uniform crime data in accordance with standards developed jointly by the Federal Bureau of Investigation and the International Association of Chiefs of Police (IACP).

Information Requirements

The Uniform Crime Reports Program has been traditionally oriented toward law enforcement statistics. The basic data elements required by the FBI, when supplemented by additional state oriented items, permit a variety of interesting statistical analyses.

Three categories of statistical reporting are utilized:

- Crime Trends - Reported Offenses
- Arrest Patterns
- Offense Characteristics

Recent Developments

The Congress of the United States. in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program. Arson data for 1981 are not available.

The National UCR Program modified its collection of data on the Age, Sex and Race of Persons Arrested effective January 1, 1980. All data concerning race were condensed to reflect only White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. In addition, ethnic origin data i.e., Hispanic or Not Hispanic were collected. New age breakdowns for persons arrested under the age of 18 were also instituted. The new categories show the number of persons arrested under ten years of age and those between the ages of 10 and 12.

The State of Hawaii UCR Program will continue to report the racial categories utilized since 1976 in all reports.

Arrest Patterns

Statistical reports derived from arrest information are presented with other UCR exhibits because they are primarily of interest to law enforcement agencies.

Offense Characteristics

UCR provides a vehicle for collecting information which describes criminal events in detail. Law enforcement and planning agencies have the predominant need for these data because of their relationship to crime prevention. Such data can be used to analyze crimes of violence according to weapon used, day of the week, victim relationship, victim age, offender age, and the police officer as a victim. Monetary losses resulting from crime against property can also be portrayed.

The monthly data collection forms encompass reported offenses, supplemental information about actual offenses and characteristics of arrested persons.

Hawaii UCR Program

In an effort to provide as complete a picture of crime in the State of Hawaii, the Hawaii Criminal Justice Data Center presently has the responsibility of serving as the clearinghouse for Uniform Crime Reporting (UCR) data.

Uniform Crime reports on personal and property crimes in Hawaii are compiled and analyzed by the Data Center.

As crime and fear of crime are recognized by citizens of the State as a problem of highest concern, timely and accurate information is necessary to assist administrators and other public officials in assessing the problem.

The Data Center is able to provide information related to crime at the State and County levels with sufficient timeliness to alert all criminal justice agencies and the public long before national crime data are released.

Significant changes have been made to the UCRs for the State of Hawaii. Prior to the Data Center's involvement in the UCR Program, the four counties independently submitted reported offense and arrest statistics to the FBI on an optional basis.

UCRs maintained at the Data Center differ from data collected at the National level in that the unique racial breakdown for Hawaii is recognized and compiled. The FBI uses only four racial categories: White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. The Hawaii program has broken out the categories to include: Chinese, Japanese, Filipino, Samoan, Korean, Hawaiian/Part Hawaiian, and Others.

Another significant change to the UCR Program has been initiated. Effective January 1, 1978, the Data Center requested that all Police Departments break out racial characteristics of murder victims to conform with the arrest categories.

These changes, along with the functions of clearinghouse and data resource center have added much to the analyses of crime for Hawaii-specific problems.

It is with these purposes in mind that we submit to you the Seventh Annual "Crime in Hawaii: A Review of Uniform Crime Reports."

TYPES OF CRIME STATISTICS

Seven offenses were chosen in the UCR Program because of their seriousness and frequency of occurrence as indicators of crime in the United States - these are known as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration taken of any unreported crimes. Because not all crimes come to the attention of the police, the International Association of Chiefs of Police (IACP) limited the reporting of offenses known to the following crime classifications because these are assumed to be the crimes which are most likely to be reported and which occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume. The chosen offenses are:

1. Criminal Homicide
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny-Theft
7. Motor Vehicle Theft

Essential to maintenance of uniform and consistent data is the establishment of a standard definition of the offenses to be used in the program. Each of the Part I Offenses has been defined specifically in UCR. The Crime Index Offenses are all of the Part I Offenses with the exception of 1b, manslaughter by negligence. Part II Offenses are all other offenses not listed in Part I.

HAWAII CRIME SUMMARY

Index Crimes

The number of Index Crimes reported in 1982 totaled 65,448. This is a 2.2 percent increase from the 1981 total of 64,060. The category that registered the largest increase was robbery, up 7.4 percent from 1981. The largest drop was recorded in the murder category, a drop of 34.0 percent.

Largest Category of Index Crimes

Larceny-theft remains as the largest category of Index Crimes (64.6 percent). A total of 42,248 larceny-thefts were reported to the police in 1982, or a 3.8 percent increase from 1981.

Personal Crimes

Crimes against persons, or violent crimes, totaled 2,542 in 1982, a 4.9 percent increase over the 1981 total of 2,424. All Index Crimes in this group, with the exception of murder, increased. The number of reported rapes increased by 0.6 percent, robberies by 7.4 percent, and aggravated assault by 4.3 percent. Murders decreased 34.0 percent from 47 in 1981 to 31 in 1982.

Property Crimes

Crime involving property and committed without the use of force totaled 62,906, or an increase of 2.1 percent over 1981. Of the total property crimes, larceny-theft accounted for 67.2 percent with burglary and motor vehicle theft accounting for 26.2 and 6.6 percent, respectively.

Residential burglaries accounted for 70.5 percent of all burglaries reported; more than half, or 52.8 percent of all reported burglaries, were committed during the day.

Value of Property Stolen

The total value of property stolen in Hawaii during 1982 was $38,525,200, down 11.8 percent from the 1981 figure of $43,701,400. The police departments were successful in recovering 26.9 percent of the loss, or $10,356,100 unchanged from the 26.9 percent recovery rate in 1981.

Arrests Reported for Index Crimes

A total of 12,172 arrests were made for Index Crimes in 1982, accounting for 30.7 percent of all arrests.

Total Arrests Reported

A total of 39,617 arrests for all non-traffic offenses were reported in 1982. Juvenile arrests accounted for 29.5 percent of all persons arrested for the year. In 1981 juveniles accounted for 26.9 percent of the arrests.

Narcotic Drug Arrests

A total of 3,298 arrests for drug violations were reported in 1982 as compared with 3,228 in 1981. The majority of arrests (78.2 percent) were for possession of marijuana. Of the total arrests, 17.6 percent were persons under 18 years of age.

Gambling Arrests

There were 1,085 arrests made on charges of gambling in 1982. Of that total, 8.6 percent were juveniles. Juveniles accounted for only 4.6 percent of gambling arrests in 1981.

Murder and Nonnegligent Manslaughter

Definition

Murder is defined in the Uniform Crime Reporting Program as the willful killing of another. The classification of this offense, as in all of the other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body.

Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the count for this offense classification. Attempts to murder or assaults to murder are scored as aggravated assaults and not as murder.

Aggravated Assault

Definition

Aggravated assault is the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed.

Burglary

Definition

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as a burglary. The offense of burglary in this Program is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

Larceny-Theft

Definition

Larceny-theft is the unlawful taking or stealing of property or articles without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. In the Uniform Crime Reporting Program this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft, of course, is excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index Offense.

NOTE: The Crime Clocks should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurance of the Index Offenses. This display should not be taken to imply a regularity in the commission of offenses, rather, it represents the annual ratio of crime to fixed time intervals.

ARREST STATISTICS

Persons Arrested

The number of persons arrested for all violations except traffic in the reporting jurisdictions is compiled from monthly returns submitted by the contributing agencies. The age, sex and race of these persons is recorded and data are collected for juveniles as well as adults for the purpose of computing arrest trends and volume.

The Age, Sex, and Race of Persons Arrested form is used to collect data on the number of persons arrested and not the number of persons charged. The same person may be arrested several times during a month for similar or several different violations within a jurisdiction; each separate arrest is counted. It is also possible that a person is arrested on several charges at one time; however, in this instance only one arrest is scored.

Race of persons arrested is broken out utilizing the State of Hawaii reporting format. Nationally utilized categories include only White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. For the State of Hawaii, the categories are further broken down to include Chinese, Japanese, Filipino, Hawaiian/Part Hawaiian, Korean, Samoan and Other.

The following tables present data on persons arrested by age, sex, and race for the State of Hawaii, 1982.

UNIFORM CRIME REPORTING DEFINITIONS

Part II Offenses

1. Other Assaults
All assaults other than aggravated are included in this category.

2. Arson
Included are all arrests relating to arson or attempted arson. If personal injury results from the arson, the situation would be classified as aggravated assault. In the event a death results from arson, the incident would be classified as a murder.

The United States Congress, in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program.

3. Forgery and Counterfeiting
Included in this classification are all offenses dealing with or attempting to deal with the making, altering, or possessing, with intent to defraud, anything false in the semblance of that which is true.

4. Fraud
Fraudulent conversion and obtaining money or property by false pretenses; includes bad checks, confidence games, etc., except forgeries and counterfeiting.

5. Embezzlement
Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

6. Stolen Property: Buying, Receiving, Possessing
Included in this category are all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

7. Vandalism
Vandalism consists of the willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

This offense covers a wide range of malicous behaviour directed at property such as: cutting auto tires, drawing obscene pictures on public restroom walls, smashing windows, destroying school records, tipping over gravestones, defacing library books, etc.

All arrests including attempts are scored as vandalism.

8. Weapons: Carrying, Possessing, Etc.
This class deals with weapon offenses, regulatory in nature, such as: manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; using, manufacturing, etc., silencers; furnishing deadly weapons to minors; aliens possessing deadly weapons.

All attempts to commit any of the above.

9. Prostitution and Commercialized Vice
Include in this class the sex offenses of a commercialized nature, such as: prostitution; keeping bawdy house, disorderly house, or house of ill fame; pandering, procuring, transporting, or detaining women for immoral purposes, etc.

All attempts to commit any of the above.

10. Sex Offenses
(Except forcible rape and prostitution and commercialized vice)
Included are offenses against chastity, common decency, morals, etc.; adultery and fornication; buggery; incest; indecent exposure; indecent liberties; intercourse with an insane, epileptic, or venereally diseased person; seduction; sodomy or crime against nature; statutory rape (no force).

All attempts to commit any of the above.

11. Narcotic Drug Laws
Narcotic drug law arrests are made on the basis of the narcotics used. The following are subdivisions of narcotic drugs law arrets:

Included are all arrests for violations of State and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

(1) opium or cocaine and their derivatives (morphine, heroin, codeine)

(2) marijuana

(3) synthetic narcotics - manufactured narcotics which can cause true drug addiction (demerol, methadones

(4) dangerous nonnarcotic drugs (barbiturates, benzedrine)

12. Gambling
All charges which relate to promoting, permitting, or engaging in gambling are included in this category.

To provide a more refined collection of gambling arrests, the following breakdown of gambling arrests are furnished:

(1) bookmaking (horse and sport book)

(2) numbers and lottery

(3) all other

13. Offenses Against The Family And Children
Included here are all charges of nonsupport and neglect or abuse of family and children:

(1) desertion, abandonment, or nonsupport of wife or child

(2) neglect or abuse of child (if injury is serious, score as aggravated assault)

(3) nonpayment of alimony

All attempts to commit any of the above.

14. Driving Under The Influence
This class is limited to the driving or operating of any vehicle or common carrier while drunk or under the influence of liquor or narcotics. Included are: operating a motor vehicle while intoxicated; operating an engine, train, streetcar, boat, etc., while intoxicated.

15. Liquor Laws
With the exception of "drunkenness", liquor law violations, State or local, are placed in this class. Included are: manufacture, sale, transporting, furnishing, possessing, etc., intoxicating liquor; maintaining unlawful drinking places; advertising and soliciting orders for intoxicating liquor; bootlegging; operating still; furnishing liquor to a minor or intemperate person; using a vehicle for illegal transportation of liquor; drinking on train or public conveyance.

All attempts to commit any of the above.

Included in this class are all offenses of drunkenness or intoxication, with the exception of "Driving Under the Influence" (Offense No. 14).

(1) drunkenness

(2) drunk and disorderly

(3) common or habitual drunkard

(4) intoxication

This class is omitted in the State of Hawaii. There are no arrests made under this section. Chapter 737-1 of the Hawaii Revised Statute was repealed under Act 9, Session Laws of Hawaii, Effective January 1, 1973.

17. Disorderly Conduct
All charges of committing a breach of the peace are placed in this class. Included are: affray; unlawful assembly; disturbing the peace; disturbing meetings; disorderly conduct in State institutions, at court, at fairs, on trains, or public conveyances, etc.; prize fights; blasphemy, profanity, and obscene language; desecrating flag; refusing to assist an officer.

All attempts to commit any of the above.

18. Vagrancy
Persons prosecuted on the charge of being a "suspicious character or person, etc." are included in this class. Included are: vagrancy; begging; loitering (persons 18 and over) vagabondage.

19. All Other Offenses
Included in this class are all other State or local offenses not included elsewhere such as:

(1) admitting minors to improper places

(2) abduction and compelling to marry

(3) abortion (death resulting from abortion is a homicide, offense class la)

Abortion by a physician is now legal in the State of Hawaii. The crime of abortion (Chapter 768-6, Hawaii Revised Statutes) was repealed under Act 9, Effective January 1, 1973.

(26) violation of quarantine

All offenses not otherwise classified.

All attempts to commit any of the above.

20. Suspicion
While "suspicion" is not an offense, it is the ground for many arrests in those jurisdictions where the law permits.

After examination by the police, the prisoner is either formally charged or released. Those formally charged are entered in one of the Part I or II Offense Classes. This class is limited to "suspicion" arrests where persons arrested are released by the police.

21. Curfew and Loitering Laws - (Juveniles)
All arrests made for violation of local curfew or loitering ordinances.

22. Runaway - (Juveniles)
For purposes of the Uniform Crime Reporting Program, reported in this category are apprehensions for protective custody, as defined by your local statute. Arrests made by other jurisdictions of runaways from your jurisdiction are also counted. Not included are protective custody actions with respect to runaways taken for other jurisdictions.
